

APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA
APR 14 1978

Date of filing in State Engineer's Office.....

Returned to applicant for correction.....

Corrected application filed.....

Map filed..... APR 14 1978 under 35285

The applicant..... Sunoco Energy Development Company
Suite 1500
12700 Park Central Pl., Box 9, of Dallas, City or Town
Street and No. or P.O. Box No.
Texas (75251), hereby make application for permission to appropriate the public
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

Incorporated January 2, 1975 in the State of Delaware

1. The source of the proposed appropriation is..... Underground Well No. 21
Name of stream, lake or other source.

2. The amount of water applied for is..... 3.25 second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet..... acre-feet

3. The water to be used for..... Industrial
Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated).....

(b) Stockwater (state number and kinds of animals to be watered).....

(c) Other use (describe fully under "No. 12. Remarks").....

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point: SW¹/₄SW¹/₄ section 15, T32N, R23E, MDB&M, or at a point from which the NE corner of said section
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land, it should be stated.
15 bears N 46° 45' E 6010 feet.

6. Place of use. S¹/₂ section 34, S¹/₂ section 35, S¹/₂ section 36, T33N, R23E, MDB&M, sections 1,2,3, E¹/₂E¹/₂ section 9, sections 10,11,12,13,14,15, 16,17,19,20,21,22,23,26,27,28,29,30,31,32,33,34,35, T32N, R23E, MDB&M.

7. Use will begin about January 1 and end about December 31, of each year.
Day and Month Day and Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Drill well to approximately 6000 feet, install casing and cement back to surface to protect fresh water zones. Hot water or steam will flow through pipeline to electric plant.
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works.....\$500,000
10. Estimated time required to construct works.....Two Years
11. Estimated time required to complete the application to beneficial use.....Five Years
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

This application is for a geothermal well with a production of 2.1 million gallons per day. The withdrawal will be 3520 acre feet per year; however, the high temperature water would be flashed with the net effect of 210,000 gallons per day being beneficially used and the remaining water returned to the reservoir so only 352 acre feet per year is actually used. This application is comingled with the other applications.

Applicant.....Sunoco Energy Development Company

APPROVAL.....OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. If the well is flowing, a valve must be installed and maintained to prevent waste. A measuring device must be installed and measurements of water use kept. The State retains the right to regulate the use of the water herein granted at any and all times.

There are to be no perforations in the well for at least the first 5000 feet. The well is to be cemented from the 5000 foot level to the surface to protect fresh water zones. The total water-steam equivalent to be withdrawn from this geothermal ground water reservoir under Permits 32285 through 35306 is limited to 3520 acre-feet of water annually.

This permit is further issued subject to the condition that the power or energy generated by the beneficial use of this water or steam is subject to recapture and use within the boundaries of the State of Nevada when the need arises.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed.....3.25.....cubic feet per second...but not to exceed.....
2353 acre-feet annually.

Actual construction work shall begin on or before.....April 6, 1979.....

Proof of commencement of work shall be filed before.....May 6, 1979.....

Work must be prosecuted with reasonable diligence and be completed on or before.....April 6, 1980.....

Proof of completion of work shall be filed before.....May 6, 1980.....

Application of water to beneficial use shall be made on or before.....April 6, 1985.....

Proof of the application of water to beneficial use shall be filed on or before.....May 6, 1985.....

Map in support of proof of beneficial use shall be filed on or before.....May 6, 1985.....

Commencement of work filed.....IN TESTIMONY WHEREOF, I.....ROLAND D. WESTERGARD
Completion of work filed.....State Engineer of Nevada, have hereunto set my hand and the seal of
